Health Nugget

Eat slowly, and allow the saliva to mingle with the food. The more liquid there is taken into the stomach with the meals, the more difficult it is for the food to digest....The benefit you derive from your food does not depend so much on the quantity eaten, as on its thorough digestion, nor the gratification of the taste so much on the amount of food swallowed as on the length of time it remains in the mouth. - R. and H., 1884, No. 31.
